### The Legend in the Dream: Demonstration of a Virtual Reality Environment based on Franz Kafka's *A Country Doctor*

All ANU staff and students are warmly welcomed to come experience a virtual reality (VR) game called *The Legend in the Dream*. It is a role-playing game based on Franz Kafka's 1917 short novel *A Country Doctor*, built by Xinrui Meng (currently enrolled on the Masters of Digital Humanities and Public Culture). Participants will be asked to don a VR headset (Oculus Rift), and explore the VR environment. We kindly ask you to fill a questionnaire describing your experience.
